

**Edinburgh, 26<sup>th</sup> September 2017**

Six West is pleased to announce at ISTAT EMEA, that it has signed a contract with IBA to provide Fleet data and Fleet intelligence to Six West using the IBA *iQ* platform for an initial period of 18 months.

Commenting on the signing of the agreement, Matthew Gee, Director of Operations at Six West said “the signing of this agreement is important to support the ferry flight operations of Six West and it’s support to aircraft lessors, banks, airlines and private operators. IBA has demonstrated a key commitment to the industry and its support during the selection process has been excellent.

Dr Stuart Hatcher, Chief Intelligence Officer at IBA commented that ‘IBA is thrilled to welcome Six West to the growing IBA.*iQ* community and we look forward to supporting them in their growth over the next 18 months and beyond’.

### **About Six West**

**Six West** specialises in offering high quality aviation solutions to the aircraft leasing industry and the private aviation industry. We provide turnkey support as required to include ferry, demonstration, lease transition assistance, crewing provision, IS-BAO safety auditing, flight operations support, human resource services and consultation to our select client base.

### **About IBA**

Approaching its thirtieth year in business, **IBA** is a leading independent aviation consultancy. Combining a unique dataset, analytical excellence, and decades of expertise, it supports clients on investments, operations, and transitions. IBA works with investors, lessors, OEMs, and banks to enhance decision making around both opportunities and risk.
